

Overview of statistical settings covered in VHM 801:

Distribution	Design			
	1 sample	2 samples		>2 samples
		indep.	paired	indep.
normal	+	+	+	+
non-parametric	+	+	+	+
binomial	+	+	–	+
multinomial	–	+	–	+

Overview:	Explanatory		Response	
2 variables	continuous	categorical	continuous	categorical
Response continuous	linear regr.	ANOVA/2-sample	correlation	–
categorical	–	2-way table: model I	–	2-way table: model II

Additionally: two-way ANOVA (1 reponse, 2 categorical explanatory variables)
